Dear Dr. R. S. Bichkar (M - 96373 00101),
Vidya Pratishthan's Kamalnayan Bajaj Institute of Engineering and Technology, Baramati

Greetings and hope you are doing well. We are excited to share the Red Hat Academy - Adopt An Academy program initiative.

RHA "ADOPT-AN-ACADEMY" PROGRAM OVERVIEW: It is a program whereby interested Red Hat Associates can engage with a Red Hat Academy on a regular cadence, leveraging their industry experience and technical expertise to ultimately better enable instructors and students across academic institutions in their communities.

PROGRAM GOALS:

- A. Expand the reach of our RHA Team by providing consistent, personal, "on-the-ground" support, while fostering Red Hat's academic partnerships across APAC.
- B. Provide real-world application to concepts taught in the classroom to bring content to life in the eyes of the students.
- C. Offer additional motivation and guidance on technical concepts as students outpace the scope of their academic content.
- D. Allow us to "give back" and create the community.

As you are aware our impact only goes as far as we are willing to take it. By getting involved with you, Red Hat is able to play an instrumental role in fostering the next generation of I.T. leaders and, in doing so, fulfil a corporate social responsibility to empower students and communities with access to needed IT skills.

HOW DO WE GET INVOLVED?

A Red Hat associate partner with one of our Red Hat Academies preferably in their base location. Each engagement opportunity lines out the respective time commitment involved, as well as associated responsibilities as desired by our academy partners to give us flexibility and choice of approach. For example...

- A. Become Students Mentor (Couple of hours per quarter, Schedule can be jointly fixed - Provide tech / non-tech insights to students) or
- B. Get involved in the Classroom and at College Career Fairs / Annual Day (Couple of hours per quarter, Schedule can be jointly fixed - Guest lectures on tech / non-tech topics) or
- C. Provide Technical Expertise (Couple of hours per quarter, Schedule can be jointly fixed - Technical support to students)

TOGETHER WE ACHIEVE MORE...

- 1. Help enable Red Hat academies to be more successful while accelerating the adoption of new open source technologies
- 2. Increase the awareness and knowledge of Red Hat Linux, Java EE, MicroServices and Emerging Technologies like Cloud and OpenShift
- 3. Strengthen Red Hat's relationships with public / private sector academic institutions / Universities
- 4. Aid academic institutions in building a pipeline of prospective talent for Red Hat / Open Source technologies ecosystem

Keeping the above in mind, we are glad to align Mr. Rajat Agrawal (marked in this mail, M - 88244 58585) from Red Hat India with your esteemed institution. Rajat is an L&D instructor / consultant at Red Hat with 7+ years of experience. He has achieved multiple certifications in Red Hat and Open Source technologies and enabled / trained various large corporates. His expertise is in Data Center, Cloud, Virtualization, Storage and DevOps Technologies. We are sure that Rajat with his experience would be able to add value to your ecosystem and take our academic relationship to the higher level. Over to both of you.

We look forward to partnering with you under this program and make it a success for all involved. Pls let me know if you have any queries and or need any clarifications. Thanks and have a great week.

Dear Student,

On date 8/1/2021, webinar was conducted for "Introduction and Scope of REDHAT certification" by Mrs.Kavita Patil(Director) TopIT Academy. For this webinar, 55 students of various departments of VPKBIET college attended this webinar. Mr. Mukesh B. Rangdal(B.E.Class Teacher), Mr. V.V.Rampurkar(Dept. Training Placement Coordinator), Mrs. Pallavi D. Jawalkar(Dept.Gate Coordinator) also attended this webinar. Mr. P.M. Paithane was given the introduction of keynote speaker and Mr.Mukesh Rangdal has expressed "vote of thanks" for this event.

Mrs. Kavita Patil has added valuable points about REDHAT.

Keypoint of Webinar

1. In this Pandemic situation, REDHAT offers many jobs to freshers as well as experienced students.
2. No aggregate criteria for REDHAT Certified students.
3. TopIT academy offers very less cost for training of REDHAT certificate for VPKBIET students.
4. Online and offline training options are available for students without hampering of academic schedule.
5. Full time Expert instructor, will be assigned for training who will conduct training, practicals,assignments, lab tests .

I attached a google form link with this email, I kindly request that interested students fill google form , so next activity can be scheduled as early as possible.

I would like to say thank to Hon'ble Dr.R.S.Bichkar Sir (Principal) ,VPKBIET for continues motivation for this webinar
