

**Report on Interactive Session
On
“Exploring Innovation” by Prof. R. K. Shastri
under Self Driven Activity of MIC Innovation Cell on 29th July 2022.**

With an intent to trigger an innovative thinking process among students an interactive session was organized by Prof. R. K. Shastri.

He briefed about the design thinking process and elaborated on the methodology of out-of-box thinking with some case studies. He discussed the problem and solution for connecting 9 dots and carried out a brainstorming activity among students.

Photo: Students exercising “9 dot problem for Out of Box Thinking”

Students were divided into groups and informed to observe their daily routine to identify a product for value addition. Students selected various products like bottle, bike, spectacle etc.
