10. Multidisciplinary Minor Course offered by E&TC Dept. to SY BTech (Comp Engg.) Microcontroller Architecture Curriculum Discussion 2024 Pattern	VS Surwase	
---	------------	--

4. Recommendations to Academic Council:

1. Access to licenced softwares should be provided to the students by Honor Students.
2. Must have tie ups with reputed training institutes viz. ENTUPLE, TCAD Labs.
3. It's better to provide industry standard tools to VLSI honors students for practicals or provide internship opportunities to get the industrial tools' access.
4. Give more focus on VLSI and Embedded systems for the Placement point of view
5. Deep Learning subject contents are too heavy. Reframe the syllabus accordingly.
6. Keep swayam courses in the VII semester
7. Keep more activities and case studies to Entrepreneurship Subject
8. Add the Ethics module to the RM subject.
9. In the Drone Technology subject, add the Aerodynamic Principle.

5. Vote of Thanks:

The Chairperson thanked all members for their valuable inputs and constructive discussion.

6. Signature of Chairperson:

Dr. Jyoti S. Rangole, Head, E&TC Engineering
