Dear all,

We have to celebrate National Space day with some related activities on 23, Aug 2023. So each dept has to arrange some activities for students with students (may be with TE as SE students will be busy in INsem exam and BE students are busy in Training) in line with expected activities by order of UGC (<https://shorturl.at/yAZB6>, <https://shorturl.at/VYUeL>) and prepare small report covering all the details with photos n video links.

We are planning to have one small event at Institute level covering showing of videos related to space missions and guidance to students on different activities of ISRO but considering different schedules and dependencies each dept is requested to plan some activities at dept level on 23 Aug (like showing of videos, guidance session, poster presentation, speech with presentation etc considering time available for students).

PI watch / show following videos and go through links for learning more with reference to Celebration of National Space Day, 23 August

Dear all (students and faculties, staff), we are celebrating National Space Day on 23 Aug 2024 and this is quiz for this day. Pl attempt all questions properly. Selected good score holders will be rewarded.

India has established its name in the global Space research and exploration field with the successful landing of Chandrayaan 3. On August 23, 2023; India became the first country to touch down near the Lunar South Pole. The successful landing of Chandrayaan 3 made ISRO the fourth organization in the world after Roscomos, NASA, and CNSA to land on the Moon. Thus, India proudly observes 23 August as National Space Day.
